Jaan Huey

The Jaan Huey Corporation is Taiwan's leading paper supplier. We manufacture all of our thermal paper in-house at our location. Our highly professional production team complemented by an excellent sales network. The production from start to finish aims to provide precision products while integrating sales channels, marketing, delivery, and after-sale services to reduce costs for our customers.

"You map it, We wrap it".

01 Strengths

As a leading manufacturer of thermal paper, we are adamant about maintaining the highest quality possible. JH Thermal paper products are "Made In Taiwan". We have been receiving heightened recognition from international customers.

02 Technology

Production process is seamless from start to finish. It is based on an auto systematic production line to ensure consistency and maximize efficiency. Jaan Huey R&D is consistently developing new coating formulations. It uses the latest technology to further enhance paper quality and ensure consistency. We only use reliable methods and only produce perfect-quality products.

03 Quality

We are committed to providing top-quality products designed to fulfill our clients' every need. From inspection of raw material through each stage of the production process, we ensure strict compliance with the ISO-9001. Quality is our driving force for continuous improvement. All Jaan Huey thermal paper passes SGS Mandate for quality assurance. Coupled with our high dedication to our customers, quality issues have become a thing of the past.
